

# KING FAHAD MILITARY MEDICAL COMPLEX

Kingdom of Saudi Arabia

EMRAM

STAGE

7

## King Fahd Military Medical Complex (KFMMC), located in Dhahran, Saudi Arabia, earns the prestigious HIMSS EMRAM Stage 7 status.

King Fahd Military Medical Complex (KFMMC) has achieved Stage 7 validation on the HIMSS Electronic Medical Record Adoption Model, becoming one of a few organizations in the Kingdom of Saudi Arabia (KSA) and the Middle East to have reached this stage. "Receiving Stage 7 validation on a HIMSS Maturity Model is a global symbol of an organization's dedication to digital transformation in healthcare." HIMSS maturity models incorporate best practices that are regularly reviewed and updated to keep current with new developments in digital technologies.

KFMMC, established in 1987 by the Ministry of Defense, is amongst eight (8) Tertiary Hospitals under the governance of the Medical Services General Directorate (MSD) of the Ministry of Defense, KSA. Upon receiving the HIMSS Stage 7 validation, a celebratory event was organized. During this occasion, Maj. Gen. Khalid Al Hudaithi, Hospital Director, and Dr. Mustafa Hassan Qurban, Director of Information and Communications Technology (ICT), stated that KFMMC is overjoyed to receive this great honor of recognition, earned for creating an in-house electronic health record that reached HIMSS EMRAM Stage 7. They further highlighted that throughout KFMMC's digital journey, state-of-the-art technologies were employed systematically by our very skilled and committed staff who focused on our goal to provide the highest level of patient safety and quality care in order to provide optimal healthcare services to all patients.

## HIMSS 7

King Fahd  
Military Medical Complex

has achieved Stage 7 as designated  
by HIMSS using the Electronic  
Medical Record Adoption Model.
